Address Verification up & running on all law MDC's.

What this means for you

- Reduction in the number of invalid and/or unrecognizable addresses.
- Officer safety
- Correct addresses in local/ state/federal statistical reporting.
- Training material is created & available! Call us to schedule for your agency!

Meet Allison Lyons, Telecom Training Specialist

A lifetime resident of Warren County, Allison attended Mason High School then continued onto Miami University where she received a BS in Marketing and Entrepreneurship. She lives with her husband Kevin in Lebanon where she spends her spare time videographing weddings, doing DIY projects around the house, and watching Kevin drum with his 3 bands at church and local venues.

Lyons' career began with Baker Concrete Construction, the nation's leading specialty concrete contractor. She handled Public Relations, sat on Action Committees, led a Skilled Trades Explorers post, and administered the corporate safety program. But it was during her time spent planning

events and training classes that she realized the importance of dynamic teaching. Most importantly, she comes to all the county's public safety agencies with an appreciation for the services they provide. Paired with her experience in videography, it's Lyons' goal to add excitement to the "tech heavy" subject matter (including SafetyNet) and make it simple for all to absorb then utilize. You'll find she's a laid back trainer whose main goal is to spread the word and tools of telecommunications and how they can make your job easier AND SAFER.

Team Leader: Gary Hardwick 4T40 513.695.2860 | Gary.Hardwick@wcoh.net 500 Justice Drive Lebanon, OH 45036 **695.HELP** Option #5

Radio

REBANDING RADIO NOTICE

CURRENT RADIO COMMUNICATION WITH EMS HELICOPTERS

- Primary channel: AirMed10LD* 8iTAC2 867.0125 MHz direct, with 156.7 PL transmitted and NO PL required for receive.
- Secondary channel: AirMed2OLD* 8iTAC4 868.0125 MHz direct, with 156.7 PL transmitted and NO PL required for receive.

Before Rebanding		Some	Some	Some		
Receive	Transmit	Old Name	Helicopters	Counties	Counties	
866.0125	821.0125	8I CALL		MUTUAL AID 1	NPSPAC 1	
800.0123	SIMPLEX	8I CALL D		MOTOAL AID T	NESPAC 1	
866.5125	821.5125	8I TAC 1		MUTUAL AID 2	NPSPAC 2	
800.5125	SIMPLEX	8I TAC 1 D		MOTOAL AID 2	Z NESFACZ	
867.0125	822.0125	8I TAC 2	AIRMED 1	MUTUAL AID 3	NPSPAC 3

007.5125	SIMPLEX	8I TAC 3 D		MOTOAL AID 4	NESEAC 4	
868.0125	823.0125	8I TAC 4	AIRMED 2	MUTUAL AID 5	NPSPAC 5	
000.0125	SIMPLEX	8I TAC 4 D	AIRWED 2		INF SPAC 5	

If communications are not successful on 800MHz, immediately request the Communications Center to patch a TAC channel to VHF Fire Mutual Aid 154,280 MHz.

*EMS has already assigned the existing term "AirMed1" to the new frequency which makes it crucial for YOU to add "OLD" to your channel call so they know you're not yet rebanded. If you don't say "OLD" they will think you're on the new rebanded frequency, which you aren't, resulting in them switching to another channel & you being left in silence. Questions? Warren County Telecom Radio Division 695-HELP #5

POST-REBANDING RADIO NOTICE

RADIO COMMUNICATION WITH EMS HELICOPTERS

- Primary channel 8TAC92D. It is 852.0125 MHz direct, with 156.7 PL transmitted and NO PL required for receive.
- Secondary channel 8TAC94D. It is 853.0125 MHz direct, with 156.7 PL transmitted and NO PL required for receive.

If communications are not successful on 800MHz, VHF Fire Mutual Aid 154.280 should be used and console patched to a Warren County TAC channel.

DISCONTINUE USING THE TERM "AirMed"

You will be notified when rebanding is complete, making this side of the card effective. Questions? Warren County Telecom Radio Division 695-HELP #5

Ou can Help Keep Radio Towers Secure!

FLAP - Fence | Lighting | Alarms | Presence

Telecom has taken care of the fence, lighting, and alarms; but your PRESENCE will really make the difference! If a radio tower is in your patrol area, do us and yourself a favor by swinging past the site. Towers are a popular place for illegal activity, underage drinking, and inappropriate conduct. The more presence we have as public officials, the less chance people will visit tower sites.

Scenario: you need 10 minutes to fill out a report. Rather than a parking lot or side of the road, park at the nearest tower site which also offers WiFi connectivity. You might just scare off a parked car, notice the gate has been tampered with, or catch a copper thief!

Telephony

Did you know? You can

avoid long-distance when calling other county agencies!

The telephone numbers listed on page 5 are the original, "general public" lines before Telephony began providing our services. For internal purposes, Warren County Telecom created prefixes for the surrounding localities that can be combined with easy-to-remember extensions (highlighted in yellow). When you use the telephony-created phone number, the switchboard automatically translates

your dialed number to the agency's "general public" phone number and completes the call. The great thing - we all avoid long distance charges!

Lebanon: (513)695-extension

Cincinnati: (513)925-extension

Dayton/Franklin: (937)425-extension

Middletown: (513)261-extension

<u>Example</u> You're in downtown Cincinnati and want to call your friend at Carlisle FD. If you call Carlisle's public number (937)743-7725, you will incur long distance charges. However, if you dial (513) 925-5511, you're using a Cincinnati area code (513), Cincinnati prefix (925), the call is routed through telephony's switchboard, then continues onto Carlisle's (937) 743-7725 number, long-distance free. Why 5511 for Carlisle FD?

55 - the first 2 digits for all fire departments in Warren County
11 - Carlisle Fire Station #11

Wallet reference cards are available in the Telephony office for quick access to all the prefixes + fire & law enforcement phone numbers. Stop by and get yours today!

LEADS UPDATES!

Law Enforcement Automated Dispatch System

Warren County Emergency Services was recently audited by LEADS informing us of required changes to the way we operate. Please read carefully to help us stay compliant & serving you quickly and correctly.

Support documentation for entry into LEADS system

- We can NO LONGER create entries with only the fact sheets we've been using.
- We MUST have a copy of the actual warrant issued by the court & a copy of CCH & BMV printouts.

Document Retention

- We must keep all appropriate documentation with the warrant that we use to enter into Leads.
- We MUST have a copy of the police report on file for all other entries into Leads/NCIC (if not a warrant, we must have on file a copy of the police report for other entries such as missing person / stolen vehicle/ stolen gun / articles / boats / license plate.)

Non-Terminal Agencies

- All MDC users MUST be fingerprinted OR we can accept an official letter from your agency stating that all MDC users are fingerprinted when hired.
- All MDC users MUST be background checked with CCH & QW every 5 years with copies kept on file.
- Security awareness training all MDC users and Leads practitioners must sign off on the training & be kept on file in the communication center (dispatch room).
- All non-MDC users MUST have LEADS practitioner training and security awareness training with documentation on file.
- LEADS newsletters must be signed off by all operators that are certified to run LEADS transactions. We can stipulate to them that if the sign off sheet is not returned within a certain time frame, their LEADS access will be revoked.
- Dispatch will be RESENDING all 2009-2011 newsletters and TAC in-service training to your agency to be signed off.

QUESTIONS?

Rob Ramby, LEADS Terminal Agency Coordinator 513.695.1574 rob.ramby@wcoh.net

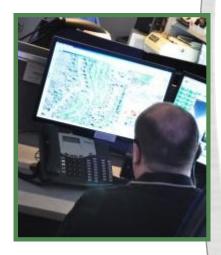

County Dispatch

Since 1991, the federal government has dedicated the 2nd full week of April to the men & women who serve as public safety telecommunicators. We want to do the same! If you're on the Warren County Government Campus between April 11-15, swing through the lower level of 500 Justice Drive for a glimpse of our 24/7 dispatch center in action. Better yet, pat one of our front line soldiers on the back, give some gratitude, and enjoy a tasty treat in honor of our beloved dispatchers!

Dispatcher walks caller through CPR on a 2 month old; lives

In January, dispatcher Bob Anson took a call from a woman in Deerfield Township reporting that her two month old baby was not breathing. While the life squad was responding from Station 56, Bob instructed the baby's father how to perform CPR. Three minutes into the almost 5-minute call, the child coughed and spit up but was still not breathing on his own. Bob continued to guide the caller through the process until Deputy Paul Barger arrived at the residence and took over. The child was transported to Children's Hospital in Liberty Township where he recovered.

Director: Bill Becker Operations Manager: Rick Murray Rick.Murray@wcoh.net 500 Justice Dr Lebanon, OH 45036

What is the E.O.C.? Warren County's Emergency Operations Center located in the lower level of 500 Justice Drive in Lebanon, OH.

A facility equipped with technology and tools that provide coordination and decision making to support incident responses at any level of Government. All incidents are local in nature (at the Village, City or Township level.) Wherever the incident occurs is who the incident belongs, typically making them "Incident Commander."

E.O.C. provides resource coordination and support to the on-scene Incident Commander.

If local resources are exhausted, the E.O.C. will seek Regional or State resources.

If State resources are exhausted, other states or resources are requested.

E.O.C. Activation

Warren County E.O.C. can be activated by the Director of Emergency Management or Designee 24/7. There are 3 levels of activation.

Full Activation

- If the incident escalates.
- If Staffing is needed in addition to EMA Staff, subject matter experts from the County or Region will be activated.
 - Include but not limited to Fire, Law Enforcement, Transportation, Hospital, EMS, Mass Care, Search and Rescue, Hazmat, Agriculture and Natural Resources, Energy, Public Safety and Security, Public Information

Partial Activation

• If an incident is expected or occurring, a partial activation may be in order.

Non-Active / **Daily Monitoring**

• Day-to-day, we monitor activities & incidents in the County as well as large scale events happening across the Nation or World. i.e. Japan's Earthquake/Tsunami

Warren County E.O.C. is equipped to run for multiple operation periods or until Incident Command longer needs our assistance.

The designated Single Point of Contact in the E.O.C. is the Single Point of Contact between Local Government & State or Federal level Government when requesting resources.

Emergency Management Assistance

Warren County Emergency Management is available to assist any and all Warren County jurisdictions 24/7. We follow the four phases of Emergency Management when dealing with disasters/incidents:

Mitigation

Preparedness

Response

Recovery

Contact us! (8:00am to 5:00pm) at 513-695-1313 or after hours by calling County Dispatch Supervisor at 513-695-1574

Emergency Management Agency

MARK YOUR CALENDAR & GET INVOLVED

Monday May 16th Shaken Horizon 2011 Earthquake Exercise

The Warren County Emergency Management Agency will participate in Ohio's Shaken Horizon Earthquake Exercise. Warren, Clermont, Butler, and Hamilton Counties are participating with the State in an earthquake drill that mirrors the National Level Exercise (NLE-11).

The Goal: to prepare for and coordinate resources for a multi jurisdictional catastrophic event that demands local, state and, federal resources.

This will be a Functional Exercise testing the activation of the Warren County primary Emergency Operation Center (EOC) and its communication capabilities with jurisdictions both inside and outside of Warren County. Multiple jurisdictions and agencies here in the County are looking to participate and benefit from this drill please join us and ensure your agency knows how to handle a catastrophic situation.

Shaken Horizon will test Warren County's abilities in the following areas:

Communications: ability to effectively establish and maintain communications among all appropriate response groups.

Emergency Operations Center: ability to utilize an EOC to coordinate and support emergency response activities.

Shelter and Evacuation Management: procedures, facilities, equipment, and services to provide protection & shelter to evacuees.

Hospital Services: activation of the Regional Hospital Disaster Net to coordinate patient flow.

Emergency Public Information and Warning: ability to coordinate and disseminate accurate & timely information to the public and the media.

For more information or to take part in the Exercise on May 16th

Contact Warren County Department of Emergency Services at (513) 695-1314. You can contact Rick or Matt directly at Rick.Murray@wcoh.net or Matthew.Haverkos@wcoh.net.

UNDERCOVER TRAINING APRIL 4-8 -- UNDERCOVER TRAINING APRIL 4-8 -- UNDERCOVER TRAINING APRIL 4-8

APRIL 4-8, 2011 Specially Priced The International Association of Undercover Officers presents

Advanced Undercover Techniques and Survival

5-day (36 hour) training for officers beginning to work undercover / have worked undercover.

- Basic portion essential for newer undercover officers & reminds veterans of important principles.
- Advanced portion undercover techniques and audio/video surveillance techniques which are rapidly changing with the introduction of new technology.
- Survival portion impacts all undercover officers and assists in keeping them safe.

Officers who participate in covert operations are not born with the talents needed to perform effectively and safely in undercover situations. These talents are developed from experience, hard work and training. This program will provide officers with the techniques and survival tactics necessary to develop or compliment their present undercover experience. Many times this can make the difference between success or failure and safety or injury.

Instructors

Charlie Fuller Retired Bureau of Alcohol, Tobacco & Firearms Special Agent | Dave Redemann Detective, Seattle PD

- Covert Operations Common Sense/Policy Issues Lust for the Bust Issues
- How to Make the Transition from Patrol to Covert Ops
- Informants How to develop and control CI's
- Unique Approaches to The Violator
- Undercover Background, Role and Identity
- Special Undercover Techniques Learning to Act/The Art of Undercover
- Ethics in Undercover Operations Honesty/Testimony
- Undercover Officer Survival Techniques Assessing Risks/Planning High Risk Events
- Force on Force Techniques Reactive vs. Pro-active
- Props When and How to Use Them
- Audio/Video Electronic Surveillance Equipment & Techniques
- Planning Undercover Operations
- The Psychology of Winning
- Legal & Testifying in Court Getting Ready for Court & Defense Attorneys
- Post Incident Procedures What to do After Violent Incident Occurs
- Undercover Checklist and Risk Analysis

Registration

■ Pre-Paid or Paid at Registration: \$425/person (normally \$495)

Group Discount (4+): \$400 per person

- Paid via Invoice after start of course: \$450/person (normally \$550)
- Cash, Visa/MC, or check. Make checks or PO's payable to The International Association of Undercover Officers.
- Fee covers the cost of the instruction, handout materials, copy of The Art of Undercover: Techniques and Survival, and certificate of completion.

Location: Hamilton Police Department 331 S Front St, Hamilton, OH 45011 Class Times: Monday-Thursday 8:30AM-5:30PM | Friday 8:30-11:30AM

FREE TRAINING

-RSVP by Friday April 8, 2011-

Who should attend this training?

Law Enforcement Officers | Arson Investigators | Crime Scene Personnel

Purpose to familiarize personnel with evidence at a blast scene and to effectively conduct a post blast investigation.

Topics Explosives Recognition Pre-Blast Components Canine Resources Bomb Technology & Improvised Explosive Devices (IEDs) Post-Blast Components IED Reconstruction Laboratory Services Illegal Explosives & Fireworks Team Concept / Scene Documentation

> Attendees will view a live Explosives Demonstration and participate in hands-on practical exercises.

May 16	8-8:30am 8:30am-5pm	Registration/Welcome Instructor Presentations
May 17	8am-5pm	Instructor Presentations / Practical Exercises
May 18	8am-5pm	Instructor Presentations / Explosives Demo
May 19	8am-5pm	Final Practical Exercise
May 20	8am-Noon	Student Presentations / Evaluations

*Students are responsible for meals & lodging if needed.

Class size limited to 30 students. Limit 2 students per agency.

Applicants will be notified of selections by Friday April 15th. Selected students are required to attend all sessions and will receive reporting instructions via email.

Registration Contact: michael.cherry@atf.gov

Don't let Certifications expire!

Fire Chiefs Association Meeting

Hannigan (Lebanon) sat in his special chair, Mitten (Harlan Twp) ate Peeps, and Hamilton Township treated attendees to a home cooked meal. These are just SOME of the highlights from March's Fire Chiefs meeting at Hamilton Township's Station 77.

We welcomed John Kennington, Certification Coordinator from Ohio EMS to speak on the importance of not letting our certification cards expire. Kennington and his lean team of two do everything possible to ensure we don't lose people because of a paperwork issue. At the 90-day mark, they begin weekly emails reminding our personnel of

their upcoming expiration, that can be renewed with few clicks on But he stresses internet. that if a firefighter or EMT is just 5 minutes past their EMS' expiration time. hands are tied and the expired personnel must retrain or recert - a costly outcome for departments. EMS' goal is

to be as user-friendly as possible for the 47,000+ active firefighters/EMTs in Ohio. By moving things online, he's been able to save EMS \$58,000 in postage fees - that's not even including the paper letters and envelopes that most likely get thrown out! Another great change - up to 6 certifications can be on ONE card, all with the same expiration. This means thinner wallets and less dates to remember for our public safety workers.

It comes down to this - unless you want to retest and reprove yourself as a firefighter / EMT, acknowledge EMS' overly generous gesture (not required by law), notifying you of your upcoming expiration, and renew. At the end of the day, we all play for the same team... TEAM SAFETY!... With the goal of making sure every municipality is staffed with trained, responsible, CERTIFIED safety personnel!

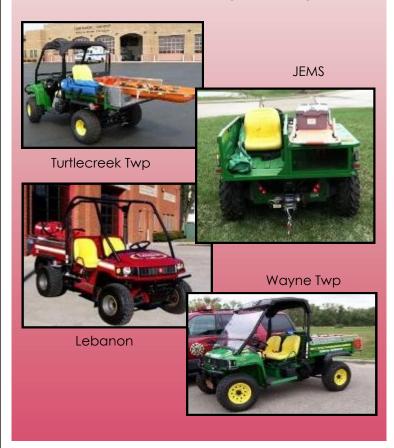

Turtlecreek adds Gator to Fleet

Following the footsteps of Lebanon, Wayne Twp and JEMS, Turtlecreek Township is the fourth Fire Department in Warren County to add a 4x4 John Deere Gator with Medical Bed to their fleet.

These can be requested by your agency for public events, off road rescues, wooded area searches, etc.

Benefits & Uses

- 50 gallon tank and pump attachment.
- Safer transport of injured persons with secure fastenings for the medical bed plus storage for medical supplies.
- Designated seats for medical personnel.
- All-terrain: perfect for rescues on trails, woods, off-road.
- Smaller in size for maneuvering events / tight spaces.

Emergency Medical news

Hey Firefighters! This is crucial info for you too!

One Card / One Expiration Date

The Ohio EMS Board and the Division of EMS have begun issuing certifications for both Fire and EMS, to expire on a common date: the certificate holder's date of birth. This will give both the certificate holder and the division the ability to more easily track multiple certifications and the continuing education requirements that must be met for each one, with a common expiration date.

Go to www.ems.ohio.gov to renew all your certificates at one time, and to see updates and valuable information pertaining to training, expiration dates, and their certification. 24/7 "Certification Verification" available https://www.dps.state.oh.us/certrenewal/Verification.aspx

All active Ohio certified first responders, EMTs, and paramedics will be affected by this change in the law. Dual-certified personnel's EMS certification will be moved to the same expiration date as their current active Ohio Firefighter certification. For those who are only EMS certified, their expiration date will be moved to their date of birth in the same year that their current Ohio EMS certification now expires.

www.publicsafety.ohio.gov/links/4765-20-23%20FF.pdf www.publicsafety.ohio.gov/links/4765-8-07%20FF.pdf

Within ninety days of Jan 1st, all individuals who hold a current Ohio EMS certificate (First Responder, EMT-Basic, EMT-Intermediate, EMT-Paramedic or EMS instructor, Assistant EMS instructor, or Continuing Education instructor) should have received a new certification card reflecting the change in their expiration date(s).

Those that are EMS only certified and then successfully complete a fire certification course, the fire certification will expire on the already established EMS birth date expiration.

Any new certifications obtained after your existing expiration date will move to the already established expiration date.

Currently, for all dual-certified Fire and EMS certificate holders, their fire and EMS certifications expire in the same year. The fire certification is set for their birth date, so their current EMS certification will be moved backwards or forwards to their birth date in the same year.

CE Requirements

Since all certification periods will be changed from the 3-year cycle that was in place at the time the affected certifications were issued, continuing education requirements will change.

For all EMS certificate holders whose Ohio certification period is lengthened, the continuing education required will not be changed. You simply have more time to complete the educational requirements.

www.publicsafety.ohio.gov/links/4765-8-06%20FF.pdf

For those certification holders whose Ohio EMS certification cycle period is shortened, the continuing education (CE) required will be pro-rated to a lesser amount. The lesser amounts of CE are detailed to the right in the EMS CE chart.

Example:

- Current certification cycle for your EMT-Basic certification: 08/01/2008 to 08/01/2011.
- Your birthday is 02-01-2011.
- New certification cycle: 08/01/2008 to 02/01/2011.

You lost 6 months, only giving you 2 1/2 years to complete your CE Requirements. So you would look in the 2-to-3 year range in the chart for the EMT-Basic certification.

The PULSE

One Card / One Expiration Date EMS Certificate to Practice Merged/Shortened Certification Cycles CE Requirements

Certificate	Less than 12 months	12 months but less than 24 months (30%)	24 months but less than 36 months (60%)	36 months or more (100%)

Safety @ HOME

"My daughter Sam loves going to the fire house, and is always inquisitive about what the fire trucks and ambulances She proudly tells everyone that she loves daddy people and also tells me how proud of me she is." - Jeff Turner Franklin Twp Firefighter Ohio Task Force -1

Tornado Safety

Last year, April acted in true Ohio form, offering temperatures from 31-84°F. We accumulated 1.93" of rain with 5 days of thunderstorms, 12 days of rain, and 10 foggy days. On top of all this, April marks the beginning of Tornado Season, so here are some tips!

What to do BEFORE a tornado

- Practice a tornado drill with your children
- Listen to radio or television newscasts for the latest info
- Look for danger signs: dark, greenish sky; large hail; large, dark, low-lying cloud; loud roar like a freight train
- Move valuables & necessities (safes, jewelry, albums, food & clothing, flashlights, pets) to your "safe zone"

Know someone who lives safety? They can be a Safety Ambassador with The National Safety Council! It's free & a great way to bring safety into your

www.millionactsofsafety.nsc.org for more info!

If you are in:	Inen:
A structure (residence, small building, school, nursing home, hospital, factory, shopping center, high-rise building)	Go to a pre-designated shelter area - basement, storm cellar, or the lowest level. If no basement, go to the center of an interior room on the lowest level away from corners, windows, doors, and outside walls. Put as many walls as possible between you and the outside. Get under a sturdy table and use your arms to protect your head and neck. Do not open windows.
A vehicle, trailer, or mobile home	Get out immediately and go to the lowest floor of a sturdy, nearby building. Mobile homes, even if tied down, offer little protection from tornadoes.
The outside with no shelter	Lie flat in a nearby ditch and cover your head with your hands. Be aware of the potential for flooding. Do not get under an overpass or bridge. You are safer in a low, flat location. Never try to outrun a tornado in urban or congested areas in a car or truck. Instead, leave the vehicle immediately for safe shelter. Flying debris from tornadoes causes most fatalities and injuries.

1924 Lorain, OH 84 killed - Deadliest in OH history

1965 55 killed - 2nd Deadliest

1974 Xenia, OH 36 known fatalities

1999 Sycamore Firefighters remove body from debris

2010 NW Ohio - 7 dead

Pet Safety: Are your furry friends protected from Fleas?

Ohio's flea season is Tax Day to Thanksgiving Day. Here are some prevention tips!

- Treatments for your pets topical, sprays, dips, shampoos, collars, orals & injectables, flea combs
- Outdoor Control: Yard treatments, detract wild animals, remove organic debris
- Indoor Control: vacuum to remove flea eggs and discard immediately, chemical treatment like foggers or surface sprays, wash your pet's (and your) bedding regularly.
