Radio Communications with Butler County

during their MARCS IP Cutover and until your radios receive the new Butler County talkgroups

When mutual aiding into Butler County, switch to MATAC 11 *(Zone E for most agencies)*

If the incident grows, Incident Command can first assign MATAC 12, then MATAC 1 and 2.

Programming order for getting Warren County radios compatible with Butler County MARCS IP:
1. Warren Co. agencies that border Butler Co and regularly mutual aid for them
2. APX portables
3. XTS portables
4. Mobiles

BC Zone 1	BC Zone 2	BC Zone 3
09 CALL	09 EVNT 01	09 EVNT 01
09 TALK	09 EVNT 02	09 EVNT 02
09 LE INFO	09 EVNT 03	09 EVNT 03
09 J-CALL	09 EVNT 04	09 EVNT 04
09 LAW 05	09 TAC 05	09 MA 05
09 LAW 06	09 TAC 06	09 MA 06
09 LAW 07	09 TAC 07	09 MA 07
09 LAW 08	09 TAC 08	09 MA 08
09 LAW 09	09 TAC 09	09 MA 09
09 LAW 10	09 TAC 10	09 MA 10
09 LAW 11	09 TAC 11	09 MA 11
09 LAW 12	09 TAC 12	09 MA 12
09 LAW 13	09 TAC 13	09 MA 13
09 LAW 14	09 TAC 14	09 MA 14
09 LAW 15	09 TAC 15	09 MA 15
09 LAW 16	09 TAC 16	09 MA 16

Once your agency has the new Butler County MARCS IP talkgroups *(subject to change)*, you can begin mutual aiding on their directed talkgroup. Notice former talkgroup prefixes 'BC' are now '09' (e.g. 'BC MA' is now '09 MA'.)

MATACs are a regional set of talkgroups that all neighboring Counties will program into their radios as they join MARCS IP. It's an alternative to programming each other's systems into our radios, adding endless zones of talkgroups. As of October 2014, MATACs are operational between Butler, Warren, and Greene Counties, with the remaining bordering Counties coming on board in the next 2 years.

Questions—Contact Telecom at 513.695.HELP and choose Option 3 for the trainer or 5 for Radio.
