<input type="checkbox"/>	Treated, Transported by Law Enforcement
<input type="checkbox"/>	Treated, Transported by Private Vehicle
<input type="checkbox"/>	Treated, Transfer Care to Helicopter
<input type="checkbox"/>	Treated, Transferred Care

“Treated / Transferred Care” does not equate to you taking a patient to the hospital and DOES NOT trigger Medicount to bill the patient.

**You must choose “Treated / Transported by EMS” when taking a patient to the hospital and for your run to be billable.**

Compare the (2) dispositions’ definitions below:

- Treated, Transferred Care  
The patient was treated but care was transferred to another EMS air or ground unit.
- Treated, Transported by EMS  
The patient was treated and transported by the reporting EMS unit

If we could create a Closed Call Rule to assist you we would, but an existing NEMSIS 3 rule would conflict with it. So user education is key!! Please share this with your EMS crews.
