

# ePCR Primary + Secondary Impressions

ePCR is forcing WCPSN crews to select a Secondary Impression that might not necessarily be accurate due to the inability to select *General Medical, Not Otherwise Listed* for both Primary and Secondary Impressions.

Applications Analyst Newton's solution was the creation of '*General Medical, Not Otherwise Listed-PI*' for the **Primary Impression** and '*General Medical, Not Otherwise Listed-SI*' for the **Secondary Impression**.

ELECTROCARDIATION

- General Medical, Not Otherwise Listed-PI
- General Medical, Not Otherwise Listed-SI

Hypertensive

TabletPCR

Trip Patient Subjective **Objective** Vital Signs

Assessment Impressions Trauma Other

Impressions >

**Primary Impression**  
General Medical, Not Otherwise Listed-PI

**Secondary Impression**  
General Medical, Not Otherwise Listed-SI

As always, please submit all recommendations & complaints to [Joseph.Newton@wcoh.net](mailto:Joseph.Newton@wcoh.net) who relies on feedback from crews to improve your experience.
