April 13, 2022

LAW ENFORCEMENT Mobile Enterprise Changes

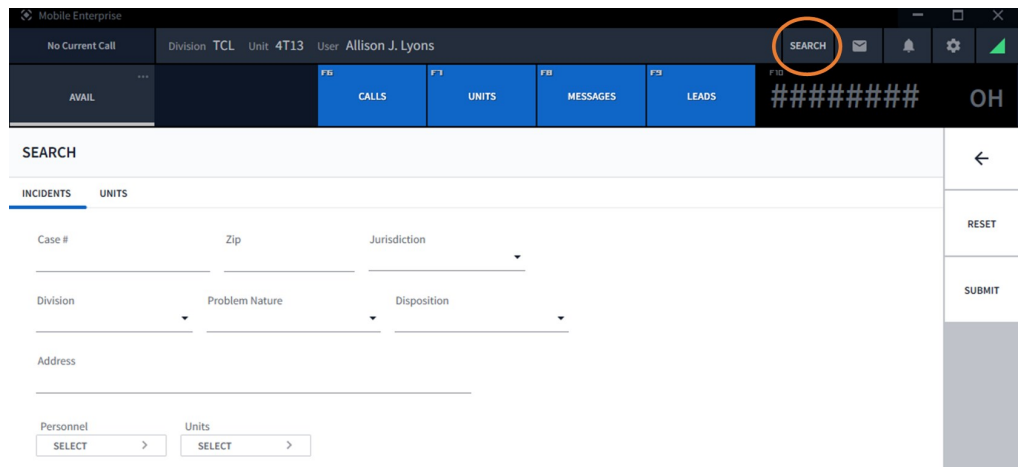

Intended Audience: Law Users of CentralSquare Mobile Enterprise

The following decisions were made by Warren County Police Chiefs Association-appointed reps on the Communications Work Group, during an April 6th work session. Options were presented by Telecom, given the latest upgrade options with decisions made by Marconi (WCSO), Turpin (Springboro), Wall (Hamilton Twp), Yeary (Mason).

BUTTONS THAT WERE REMOVED

CAD SEARCH buttons 'Incident Search', 'Personnel Search', 'Unit History', and 'Unit Status' were removed since this functionality is easier to access from the top right corner SEARCH tool. Also removed: Position Update.

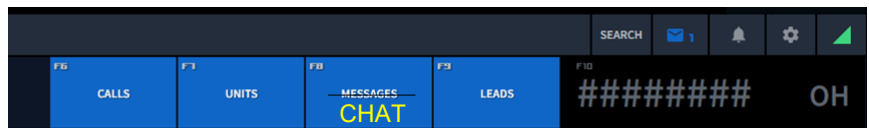

INCIDENT SCREEN

- Tip: scroll comments by collapsing Units tab (down arrow) or press ^ v button next to INC # screen.
- 2nd Loc Tab: Reordered columns to be Unit, Address, Cross Street
- New Tab: Linked Inc – column order is Unit, Date, Time, Problem Nature, Address

FUTURE CHANGES

- NextGen HTML forms are coming soon— The group chose to transition to 'NextGen Forms' that are HTML based. While the look and layout may change, the functionality will remain the same as you're used to today.
- Once chat is online (anticipated Q3 2022), the current F8 MESSAGES blue button will be replaced by an F8 CHAT blue button. Users will access messages from the envelope in the top toolbar as the group thinks messages will become less used once chat is available.
